OMEGA^{AI}

Technology so intelligent,
it's superhuman

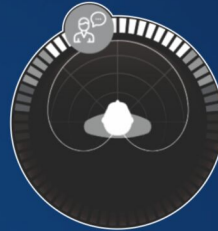

Introducing DNN 360

Omnidirectional

ALL NEW
DNN Spatial
Awareness

ALL NEW
DNN Directionality

Motion Based
Optimization

First, Starkey introduced On-Demand DNN. Then Always-On DNN. Now, with Omega AI, we present **the world's first DNN-powered directionality system, DNN 360.**

Omega AI intuitively detects characteristics such as speech, background noise, and motion, adjusting accordingly.

This helps patients navigate their surroundings with greater confidence, knowing their hearing will adapt as they go.

Engineered with our industry-leading AI, our G3 Gen AI Neuro Processor, and the world's first DNN-powered directionality system, DNN 360, Omega AI is Starkey's most advanced hearing technology yet. It's designed to come closer to restoring the normal sense of hearing than any hearing technology before it.

**Endless
hearing,
unstoppable
you**

Gen AI: Say it, solve it

Leading the way in AI, we offer Gen AI features in the My Starkey app and Pro Fit software that open new paths to support you and your patients.

Gen AI Smart Assistant

Now, patients can **get hands-free help using their voice**—from receiving detailed responses to switching programs and setting reminders.

TeleHear AI

Help patients manage their own sound concerns. After listening to the issue, TeleHear AI **instantly creates a sound adjustment for them.**

AI Assist

Answer your product-related questions as you're fitting patients by **leveraging Gen AI and current Starkey content.**

My Starkey App

Flexibility and control all day, everyday

The My Starkey app empowers patients with on-the-go hearing control—including Apple Watch compatibility — and has a comprehensive suite of features to help them hear better and live better.

Features		Enjoy additional features with the My Starkey app that help your patients hear better and live better lives.
ALL NEW TeleHear AI	Generative AI-powered user assistant for 24/7 adjustment help.	
ALL NEW Balance Builder	Balance Exercise showcases a set of exercises designed to help the user work on different elements of balance and uses the onboard sensors to monitor the movements that are carried out to provide trend data.	
ALL NEW Respiratory Rate	Respiratory Rate Monitoring automatically measures and displays the user's respiration rate in breaths per minute (BPM) when the user is at rest.	
ALL NEW Gen AI Smart Assistant	Generative AI-powered Smart Assistant with enhanced context awareness and more natural responses.	
Find My Hearing Aids	Find My Hearing Aids will estimate the last place the hearing aids were connected to the phone and will display the results on a map. It is also equipped with signal bar indicators to show how close powered-on hearing aids are to the phone.	
TeleHear	Access remote care through live or asynchronous adjustment requests.	
INDUSTRY EXCLUSIVE Self Check	Available through Pro Fit or the mobile app, Self Check runs a diagnostic check of the microphone, processor, and receiver and provides a report with troubleshooting steps if needed.	
INDUSTRY EXCLUSIVE Fall Alert	Once enabled, Fall Alert uses the sensors onboard the hearing aid to automatically detect a fall and alert emergency contacts via text message.	
INDUSTRY EXCLUSIVE Balance Assessment	Available in the mobile app, Balance Assessment utilizes the sensors onboard the hearing aid to record accurate recordings and scoring of standard balance assessment examinations.	
INDUSTRY EXCLUSIVE Smart Assistant	Allows the patient to receive hands-free help using their voice. Smart Assistant can help the patient troubleshoot their hearing aids, change volume or program, find their phone, and even answer questions like "what is the weather today?".	
INDUSTRY EXCLUSIVE Reminders	Personal one-time or recurring reminders can be set to alert the patient via their phone home screen and audibly through their hearing aids. Intelligent Reminders can also be set to remind patients of hearing aid-related topics like inserting their hearing aids and regular hearing aid maintenance.	
INDUSTRY EXCLUSIVE Translate	Easily translate over 70 languages through the mobile app with audible translation through the hearing aids.	
INDUSTRY EXCLUSIVE Transcribe	Real-time transcription through the mobile app that can be saved or sent through another mobile application.	

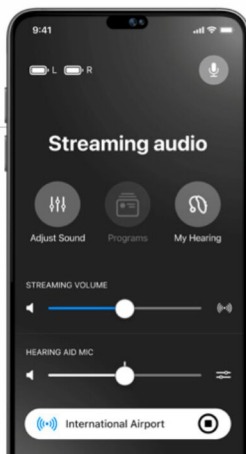

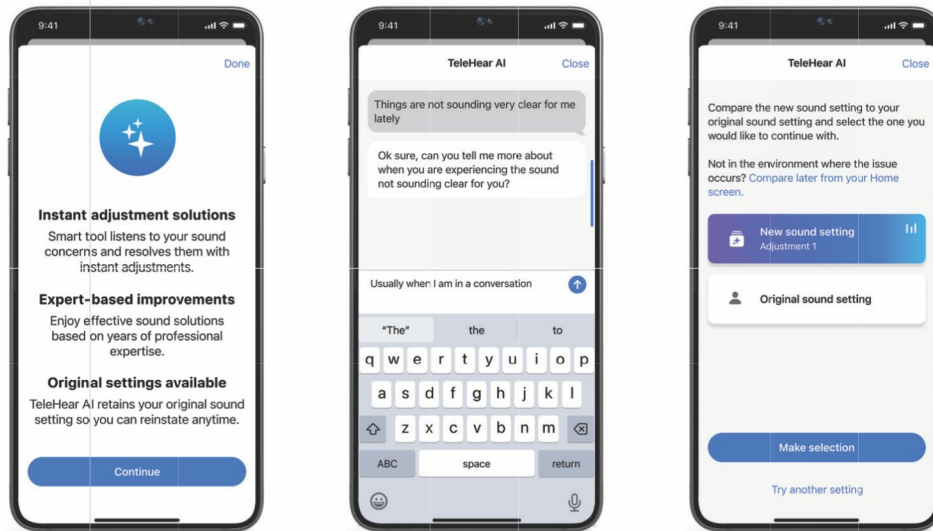

ALL NEW

TeleHear AI

Around the clock help

Starkey's world's first TeleHear AI, powered by advanced Gen AI technology, offers patients 24/7 support whenever they need it. This intelligent assistant accurately diagnoses hearing-related concerns and delivers personalized hearing aid adjustments tailored to each individual's needs.

A new dimension in connectivity

All-new **Auracast™** assistant and **Google Fast Pair™** technology make connectivity so convenient, it's automatic.

ALL NEW

Balance Builder ALL NEW

This beneficial feature helps patients proactively prevent falls through exercises designed to bolster balance and stability.

Respiratory Rate monitoring INDUSTRY FIRST

Patients can now easily monitor their respiratory rate—one of the four vital signs that help measure our body's most basic functions—thanks to My Starkey.

Scan to check phone compatibility

Starlink Edge Accessories & Chargers

A connected experience is an **expectation**

StarLink Edge Table Microphone

BDT 50,000 **Per Unit**

Ideal for seated, multi-speaker gatherings, this features rechargeability and eight built-in microphones to help you hear whoever is speaking by streaming their voice directly to your hearing aids. Use it to stream other audio sources, as well, by placing it near what you want to hear. Features start/stop streaming the moment you power it on or off.

StarLink Edge TV Streamer

BDT 25,000 **Per Unit**

Auracast™ ready, the Edge TV Streamer uses Bluetooth® Low Energy (LE) Audio protocol to stream audio straight from a TV to paired Omega AI & Edge AI Hearing Aids

CROS Transmitter *

BDT 35,000 **Per Unit**

Starkey's CROS solution transmits sound wirelessly from a microphone placed on a patient's unaidable ear to a receiver fitted on a patient's better ear.

StarLink Premium Charger 2.0

BDT 32,000 **Per Unit**

(with on-board battery)

Operates as a portable charging station and case for standard lithium-ion rechargeable hearing aids. Comes with on-board turbo charging. Turbo charging automatically occurs when the hearing aid battery is low. The hearing aid will rapidly charge, providing approximately 3 hours of use time with only 10 minutes of charging. Includes an on-board battery which allows charging of the hearing aids to occur without a power source. Compatible with Omega AI range of products.

StarLink Edge Remote Microphone

BDT 25,000 **Per Unit**

Small and rechargeable, this makes it easy for you to enjoy one-on-one conversations in noise by clipping it to a companion's shirt or placing it on a table. Instantly starts/stops streaming to your hearing aids the second it's powered on or off. Also works as a remote control.

StarLink Remote Control 2.0

BDT 15,000 **Per Unit**

Designed for maximum simplicity, this remote lets you easily control volume, change programs, and quickly access a favorite feature. Includes replaceable cell battery and lanyard.

StarLink Premium Custom Charger 2.0

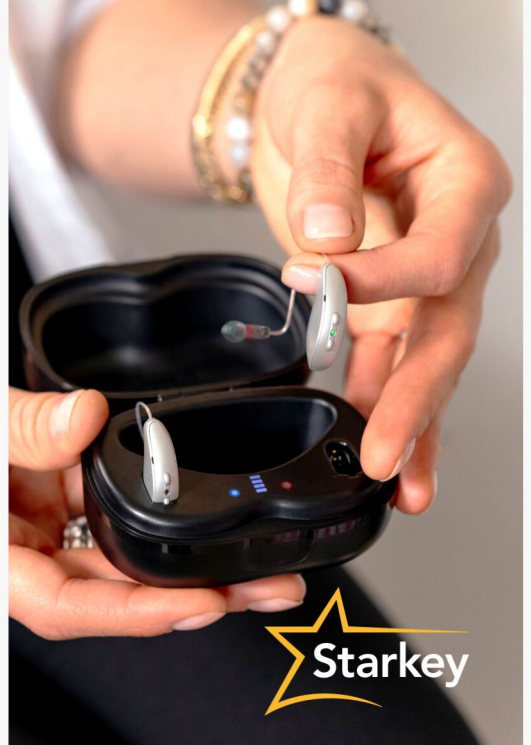

BDT 32,000 **Per Unit**

(with on-board battery)

Operates as a portable charging station and case for custom lithium-ion rechargeable hearing aids. Comes with on-board turbo charging. Turbo charging automatically occurs when the hearing aid battery is low. The hearing aid will rapidly charge, providing approximately 3 hours of use time with only 10 minutes of charging. Includes an on-board battery which allows charging of the hearing aids to occur without a power source. Compatible with Omega AI range of products.

Note: 1. All wireless accessories, chargers & CROS/BiCROS Transmitters cover 1 year warranty.
2. All prices mentioned above are inclusive of all taxes.

Making connectivity convenient

From public spaces to personal chats, Omega AI keeps patients connected with three all-new My Starkey features.

Auracast™ assistant ALL NEW

Patients can select and connect to Auracast broadcasts at airports, gyms, or public announcements, and stream high-quality, low-latency audio anywhere it's available.

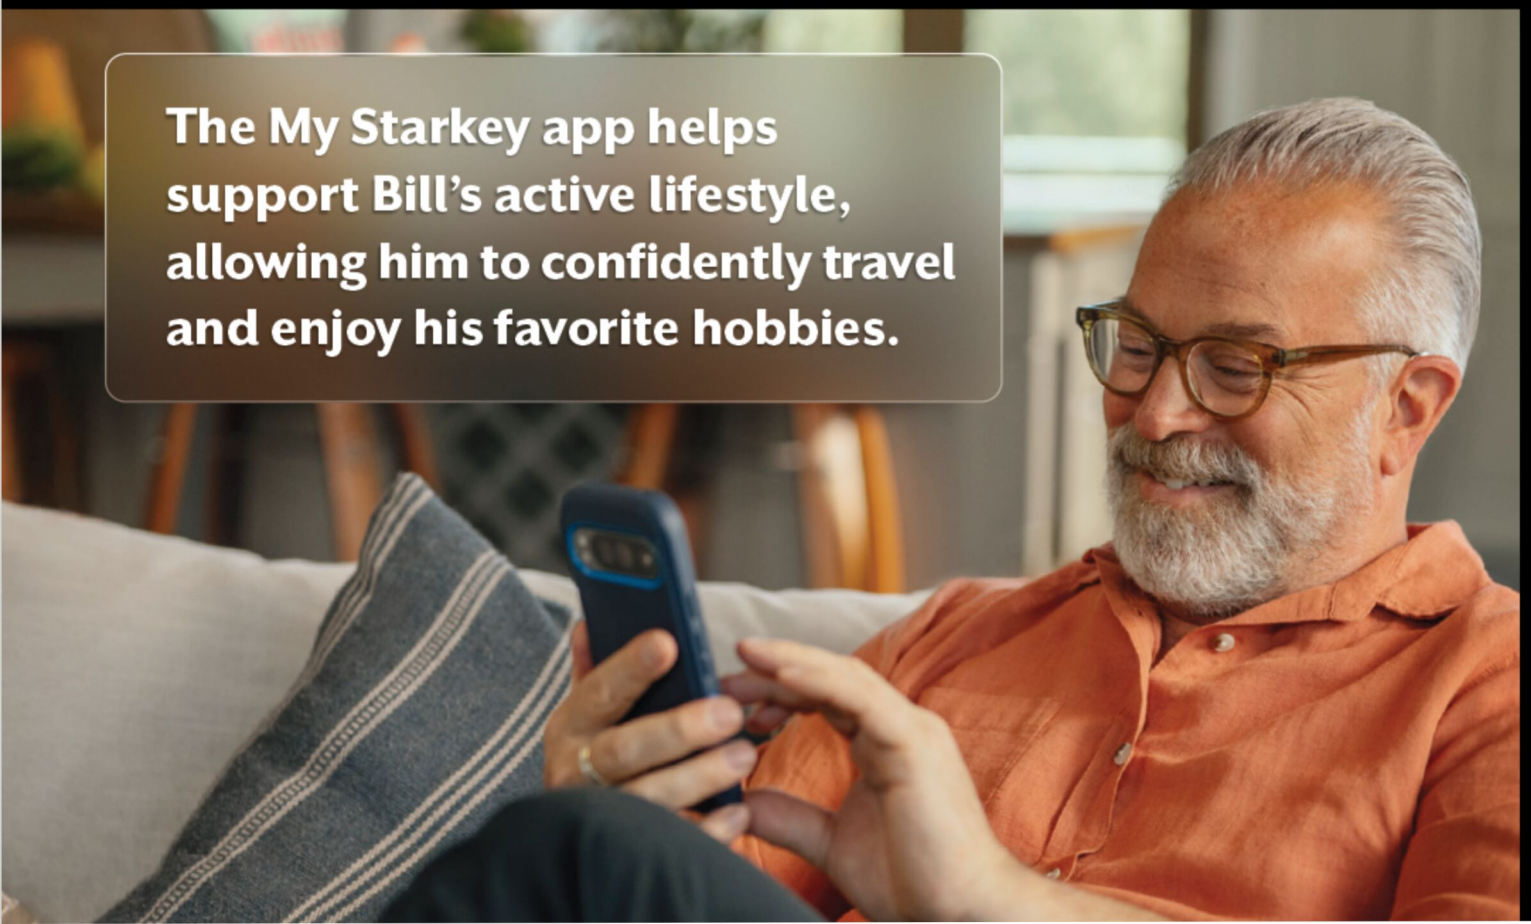

Google Fast Pair™ ALL NEW

For Android users, Omega AI detects any nearby Bluetooth® device and connects with one tap—fast, simple, and smart.

Push-to-talk ALL NEW

Send quick voice messages to another My Starkey user with Push-to-talk. Perfect for on-the-go communication.

The My Starkey app helps support Bill's active lifestyle, allowing him to confidently travel and enjoy his favorite hobbies.

G SERIES^{AI}

Hear & now

Hearing within reach

Hear more out of life with G Series AI

Treating your hearing loss is your first step toward the quality of life you deserve—reconnecting you with loved ones, reclaiming your confidence, and enjoying the moments that matter.

With **G Series AI**, you get easy, immediate, and effective technology designed to improve your hearing and overall living.

Uses **Friendly AI** to identify your listening environment and automatically adjust G Series AI settings for your best hearing experience.

Bluetooth® communication

Allows your G Series AI hearing aids to connect to Bluetooth devices, like smartphones.

StarLink Wireless Accessories & Chargers

Table Microphone BDT 50,000

Make group settings easy with eight built-in microphones that stream the primary speaker's voice directly to the patient's hearing aids.

Remote Mic + BDT 25,000

Allows patients to easily stream from a variety of audio sources. This simple to use remote microphone + offers the most capabilities available in any accessory.

Remote Control 2.0 BDT 18,000

Easily control memory and volume, mute hearing aids and turn other special features on and off.

TV Streamer BDT 25,000

Allows patients to easily stream audio from their TV or other electronic audio source directly to their hearing aids.

Operates as a portable charging station and case for standard lithium-ion rechargeable hearing aids. Comes with on-board turbo charging. Turbo charging automatically occurs when the hearing aid battery is low. The hearing aid will rapidly charge, providing approximately 3 hours of use time with only 10 minutes of charging. Includes an on-board battery which allows charging of the hearing aids to occur without a power source. Compatible with G Series range of products.

BDT 32,000
StarLink Premium Charger 2.0
(with on-board battery)

Enjoy every moment with rechargeable Hearing Aids

Note: 1. All wireless accessories & chargers cover 1 year warranty.
2. All prices mentioned above are inclusive of all taxes.
